

GetCodeFree

AI-Native Product Engineering Agency

For founders who ship - not just plan

Founder: Amitav Panda | Website: getcodefreetech.com | Email: pandaamitav01@gmail.com

1. Overview

GetCodeFree is an AI-native product engineering agency. We ship production-grade digital products at 3x the speed of traditional agencies using multi-agent dev workflows, LLM-assisted code generation, and production-hardened AI pipelines.

2. What We Build

Service	Timeline	What
MVP Launch Sprint	~3 weeks	Production-ready MVP - scope, design, build, ship
Full Product Development	Custom	Zero to production, monthly support included
AI Workflow Automation	Within 5 days	Lead gen, CRM, internal tools, AI agents
AI Setups and Integrations	1-2 weeks	LLM, RAG, chatbots, multi-agent systems
Production Upgrade	Ongoing	Harden MVP to production-grade
Landing Pages and Small Projects	1-2 weeks	High-impact pages with admin panels

3. Why GetCodeFree

- AI-native - Not AI-assisted. Multi-agent dev workflows, LLM-assisted QA, automated delivery
- Founder-led - The person you speak to ships code. No account managers, no PM layers
- Senior-only - Every engineer builds production apps. No juniors
- 3x faster - 3-week MVPs are a tested model, not a promise
- Real shipped products - CerenOne (App Store), EcomAI (live), US AI SaaS at scale

4. Ideal Client Profile (ICP)

Attribute	Target
Stage	Pre-seed to Series A
Need	MVP build, mobile/web app, AI automation
Budget	Rs. 3L - Rs. 25L setup + MRR retainers
Decision Maker	Founder, CTO, CPO
Geography	US (primary), EU, Dubai, India

We work with:

- YC and YC-type startups needing dev teams to build MVPs
- Companies looking to build multi-agent AI systems for automation
- Founders who need senior technical team without full-time hiring

5. Proof of Work

Project	Type	Status
CerenOne	Mobile (React Native)	Live on App Store
EcomAI	AI-Powered Commerce OS	Live beta
US AI SaaS Startup	Enterprise Gen-AI at scale	Production (0 to 1 to scale)

6. Pricing Model

Service	Price Range
MVP Sprint (web / mobile)	Rs. 3L - Rs. 25L
AI Automation Sprint	Rs. 2L - Rs. 5L
MVP to Production Upgrade	Rs. 3L - Rs. 8L
Managed Partner Retainer	Rs. 75k - Rs. 2.5L per month

7. What We Expect From You (Sales / Outreach Partner)

Role: Outbound lead generation - LinkedIn DMs, cold email, X outreach

Your ICP: Founders at YC-type startups, companies needing MVPs or AI automation

Existing pipeline: Already have 2 partners driving qualified conversations. Need one more.

Compensation: Freelance / commission on milestone basis

Long-term: Strong results lead to long-term partnership discussion

What we don't need: Volume. We need quality conversations with real buyers.

How we will work together:

1. You identify and start conversations with ICP
2. You book intro calls with warm prospects
3. Amitav (founder) takes the technical pitch and closes
4. You get commission on milestone basis
5. Retainer clients earn ongoing commission

8. Confidentiality and NDA

This document contains confidential information about GetCodeFree's operations, pricing, client list, and business strategy.

By receiving this document, you agree to:

Not share this document or its contents with any third party without explicit written consent

Not disclose client names, project details, pricing, or business processes discussed during partnership
